Author Index

Aran, J.-M., see Dupont, J. (68) 217

Benser, M.E., Issa, N.P. and Hudspeth, A.J.
Hair-bundle stiffness dominates the elastic reactance to otolithic-membrane shear (68) 243
Bobbin, R.P., see Kujawa, S.G. (68) 97
Borg, E., see Li, H.-S. (68) 19
Botta, L., see Zucca, G. (68) 238

Carlisle, E.W., see Levine, R.A. (68) 59
Carlisle, E.W., see Levine, R.A. (68) 73
Cheatham, M.A. and Dallos, P.
Longitudinal comparisons of IHC ac and dc receptor potentials recorded from the guinea pig cochlea (68) 107
Chen, J.-s., see Wang, J. (68) 152
Chéry-Croze, S., Moulin, A. and Collet, L.
Effect of contralateral sound stimulation on the distortion product $2f_1-f_2$ in humans: Evidence of a frequency specificity (68) 53
Colburn, H.S., see Han, Y. (68) 115
Collet, L., see Chéry-Croze, S. (68) 53

Dallos, P., see Cheatham, M.A. (68) 107
Dobie, R.A., see Levi, E.C. (68) 42
Dong, W.-j., see Wang, J. (68) 152
Drescher, D.G., see Foster, J.D. (68) 180
Drescher, M.J., see Foster, J.D. (68) 180
Dupont, J., Guilhaume, A. and Aran, J.-M.
Neuronal degeneration of primary cochlear and vestibular innervations after local injection of sisomicin in the guinea pig (68) 217

Fallon, M., see Kujawa, S.G. (68) 97
Folsom, R.C., see Levi, E.C. (68) 42
Folsom, R.C., see Werner, L.A. (68) 131
Forss, N., Mäkelä, J.P., McEvoy, L. and Hari, R.
Temporal integration and oscillatory responses of the human auditory cortex revealed by evoked magnetic fields to click trains (68) 89
Foster, J.D., Drescher, M.J., Khan, K.M. and Drescher, D.G.
Immunohistochemical localization of S-100 protein in the saccule of the rainbow trout (*Salmo gairdnerii* R.) (68) 180
Fullerton, B.C., see Levine, R.A. (68) 59
Fullerton, B.C., see Levine, R.A. (68) 73
Furst, M., see Levine, R.A. (68) 59
Furst, M., see Levine, R.A. (68) 73

Gardner, J.C., see Levine, R.A. (68) 59
Gardner, J.C., see Levine, R.A. (68) 73
Geisler, C.D.
A realizable cochlear model using feedback from motile outer hair cells (68) 253
Glattke, T.J., see Kujawa, S.G. (68) 97
Glotzbach, L., see Penner, M.J. (68) 229
Guilhaume, A., see Dupont, J. (68) 217

Han, Y. and Colburn, H.S.
Point-neuron model for binaural interaction in MSO (68) 115
Hari, R., see Forss, N. (68) 89

Horner, K.C.
Functional changes associated with experimentally induced endolymphatic hydrops (68) 1
Huang, T., see Penner, M.J. (68) 229
Hudspeth, A.J., see Benser, M.E. (68) 243

Issa, N.P., see Benser, M.E. (68) 243

Jiang, Z.D., Zhang, L., Wu, Y.Y. and Liu, X.Y.
Brainstem auditory evoked responses from birth to adulthood: Development of wave amplitude (68) 35
Johnson, D.H., see Zacksenhouse, M. (68) 202

Kelly, J.B., see Wu, S.H. (68) 189
Khan, K.M., see Foster, J.D. (68) 180
Kiang, N.Y.S., see Levine, R.A. (68) 59
Kiang, N.Y.S., see Levine, R.A. (68) 73
Kujawa, S.G., Glattke, T.J., Fallon, M. and Bobbin, R.P.
Contralateral sound suppresses distortion product otoacoustic emissions through cholinergic mechanisms (68) 97
Kumoi, K., Saito, N. and Tanaka, C.
Immunohistochemical localization of γ-aminobutyric acid- and aspartate-containing neurons in the guinea pig superior olivary complex (68) 173

Levi, E.C., Folsom, R.C. and Dobie, R.A.
Amplitude-modulation following response (AMFR): Effects of modulation rate, carrier frequency, age, and state (68) 42
Levine, R.A., Gardner, J.C., Fullerton, B.C., Stufflebeam, S.M., Carlisle, E.W., Furst, M., Rosen, B.R. and Kiang, N.Y.S.
Effects of multiple sclerosis brainstem lesions on sound lateralization and brainstem auditory evoked potentials (68) 73
Levine, R.A., Gardner, J.C., Stufflebeam, S.M., Fullerton, B.C., Carlisle, E.W., Furst, M., Rosen, B.R. and Kiang, N.Y.S.
Binaural auditory processing in multiple sclerosis subjects (68) 59
Li, H.-S. and Borg, E.
Auditory degeneration after acoustic trauma in two genotypes of mice (68) 19
Li, Q.-h., see Wang, J. (68) 152

Mancl, L.R., see Werner, L.A. (68) 131
McEvoy, L., see Forss, N. (68) 89
McFadden, D.
A speculation about the parallel ear asymmetries and sex differences in hearing sensitivity and otoacoustic emissions (68) 143
Milesi, V., see Zucca, G. (68) 238
Moore, D.R.
Auditory brainstem responses in ferrets following unilateral cochlear removal (68) 28
Moulin, A., see Chéry-Croze, S. (68) 53

Penner, M.J., Glotzbach, L. and Huang, T.
Spontaneous otoacoustic emissions: Measurement and data (68) 229
Pickles, J.O.
A model for the mechanics of the stereociliar bundle on acousticolateral hair cells (68) 159

Rosen, B.R., see Levine, R.A. (68) 59
Rosen, B.R., see Levine, R.A. (68) 73

Saito, N., see Kumoi, K. (68) 173
Stufflebeam, S.M., see Levine, R.A. (68) 59
Stufflebeam, S.M., see Levine, R.A. (68) 73

Tanaka, C., see Kumoi, K. (68) 173
Tsuchitani, C., see Zacksenhouse, M. (68) 202

Valli, P., see Zucca, G. (68) 238

Wang, J., Li, Q.-h., Dong, W.-j. and Chen, J.-s.
Effects of K^+-channel blockers on cochlear potentials in the guinea pig (68) 152
Werner, L.A., Folsom, R.C. and Mancl, L.R.
The relationship between auditory brainstem response and behavioral thresholds in normal hearing infants and adults (68) 131
Wu, S.H. and Kelly, J.B.
Response of neurons in the lateral superior olive and medial nucleus of the trapezoid body to repetitive stimulation: Intracellular and extracellular recordings from mouse brain slice (68) 189
Wu, Y.Y., see Jiang, Z.D. (68) 35

Zacksenhouse, M., Johnson, D.H. and Tsuchitani, C.
Excitation effects on LSO unit sustained responses: Point process characterization (68) 202
Zhang, L., see Jiang, Z.D. (68) 35
Zucca, G., Botta, L., Milesi, V. and Valli, P.
Sensory adaptation in frog vestibular organs (68) 238

Subject Index

Acetylcholine
Cochlear mechanics; Contralateral sound suppression; Olivocochlear neurons; Outer hair cells (Kujawa, S.G. (68) 97)

Acoustic chiasm
Superior olivary complex; Trapezoid body; Sound localization; Binaural integration; Temporal response (Wu, S.H. (68) 189)

Aging
Noise trauma; Genotype; Interaction; Auditory threshold (Li, H.-S. (68) 19)

γ-Aminobutyric acid
Aspartate; Immunohistochemistry; Superior olivary complex; Guinea pig (Kumoi, K. (68) 173)

Aminoglycoside ototoxicity
Spiral ganglion; Scarpa's ganglion; Neuronal degeneration; Guinea pig; Morphology (Dupont, J. (68) 217)

Amplitude modulation
Auditory evoked potentials; Coherence; Steady-state responses; Auditory development; Sedation (Levi, E.C. (68) 42)

Aspartate
γ-Aminobutyric acid; Immunohistochemistry; Superior olivary complex; Guinea pig (Kumoi, K. (68) 173)

Auditory cortex
Magnetoencephalography; Temporal integration; Evoked response; 40-Hz response; Steady-state response; Humans (Forss, N. (68) 89)

Auditory development
Auditory evoked potentials; Amplitude modulation; Coherence; Steady-state responses; Sedation (Levi, E.C. (68) 42)

Auditory sensitivity (Werner, L.A. (68) 131)

Auditory evoked potentials
Amplitude modulation; Coherence; Steady-state responses; Auditory development; Sedation (Levi, E.C. (68) 42)

Auditory sensitivity
Auditory development (Werner, L.A. (68) 131)

Spontaneous otoacoustic emissions; Efferent system; Sex differences; Handedness (McFadden, D. (68) 143)

Auditory threshold
Noise trauma; Aging; Genotype; Interaction (Li, H.-S. (68) 19)

Binaural integration
Superior olivary complex; Trapezoid body; Sound localization; Acoustic chiasm; Temporal response (Wu, S.H. (68) 189)

Binaural processing
Neural modeling; Medial superior olive (Han, Y. (68) 115)

Brainstem auditory evoked potentials
Sound lateralization; Multiple sclerosis; Magnetic resonance imaging; Interaural discrimination (Levine, R.A. (68) 59)

Sound lateralization; Multiple sclerosis; Magnetic resonance imaging; Interaural discimination (Levine, R.A. (68) 73)

Brainstem auditory evoked response
Development; Hearing; Neurology; Normative study; Children (Jiang, Z.D. (68) 35)

Calcium-binding proteins
Hair cells; Saccule; *Salmo gairdnerii* (Foster, J.D. (68) 180)

Children
Development; Hearing; Neurology; Normative study; Brainstem auditory evoked response (Jiang, Z.D. (68) 35)

Cochlea
Endolymphatic hydrops; Inner ear; Vestibule; Menière's disease; Hearing; Pathology (Horner, K.C. (68) 1)

Discharge rate; Hair cell; Receptor potential; Synchrony; Synaptic processes (Cheatham, M.A. (68) 107)

Cochlear mechanics
Acetylcholine; Contralateral sound suppression; Olivocochlear neurons; Outer hair cells (Kujawa, S.G. (68) 97)

Cochlear potentials
Potassium-channel blockers; Noise (Wang, J. (68) 152)

Cochlear vibration
Outer hair cell; Feedback; Model (Geisler, C.D. (68) 253)

Coherence
Auditory evoked potentials; Amplitude modulation; Steady-state responses; Auditory development; Sedation (Levi, E.C. (68) 42)

Contralateral sound suppression
Acetylcholine; Cochlear mechanics; Olivocochlear neurons; Outer hair cells (Kujawa, S.G. (68) 97)

Deafness
Development; Plasticity (Moore, D.R. (68) 28)

Development
Deafness; Plasticity (Moore, D.R. (68) 28)

Hearing; Neurology; Normative study; Children; Brainstem auditory evoked response (Jiang, Z.D. (68) 35)

Discharge rate
Cochlea; Hair cell; Receptor potential; Synchrony; Synaptic processes (Cheatham, M.A. (68) 107)

$2f_1-f_2$ Distortion product oto-emissions
Frequency specificity; Medial olivo-cochlear efferents (Chéry-Croze, S. (68) 53)

Efferent system
Auditory sensitivity; Spontaneous otoacoustic emissions; Sex differences; Handedness (McFadden, D. (68) 143)

Emissions
SOAEs; Tinnitus (Penner, M.J. (68) 229)

Endolymphatic hydrops
Inner ear; Cochlea; Vestibule; Menière's disease; Hearing; Pathology (Horner, K.C. (68) 1)

Evoked response
Magnetoencephalography; Auditory cortex; Temporal integration; 40-Hz response; Steady-state response; Humans (Forss, N. (68) 89)

Excitation
Point process models; Lateral superior olive (Zacksenhouse, M. (68) 202)

Feedback
Cochlear vibration; Outer hair cell; Model (Geisler, C.D. (68) 253)

Frequency specificity
$2f_1-f_2$ Distortion product oto-emissions; Medial olivo-cochlear efferents (Chéry-Croze, S. (68) 53)

Genotype
Noise trauma; Aging; Interaction; Auditory threshold (Li, H.-S. (68) 19)

Guinea pig
γ-Aminobutyric acid; Aspartate; Immunohistochemistry; Superior olivary complex (Kumoi, K. (68) 173)

Spiral ganglion; Scarpa's ganglion; Neuronal degeneration; Aminoglycoside ototoxicity; Morphology (Dupont, J. (68) 217)

Hair cell
Cochlea; Discharge rate; Receptor potential; Synchrony; Synaptic processes (Cheatham, M.A. (68) 107)

Transduction; Mechanics; Model; Stereocilia; Tip link (Pickles, J.O. (68) 159)

Sensory adaptation; Semicircular canal; Na^+-K^+-ATPase; Ouabain (Zucca, G. (68) 238)

Sacculus; Stereocilia; Transduction; Vestibular system (Benser, M.E. (68) 243)

Hair cells
Calcium-binding proteins; Saccule; *Salmo gairdnerii* (Foster, J.D. (68) 180)

Handedness
Auditory sensitivity; Spontaneous otoacoustic emissions; Efferent system; Sex differences (McFadden, D. (68) 143)

Hearing
Endolymphatic hydrops; Inner ear; Cochlea; Vestibule; Menière's disease; Pathology (Horner, K.C. (68) 1)

Development; Neurology; Normative study; Children; Brainstem auditory evoked response (Jiang, Z.D. (68) 35)

Humans
Magnetoencephalography; Auditory cortex; Temporal integration; Evoked response; 40-Hz response; Steady-state response (Forss, N. (68) 89)

40-Hz response
Magnetoencephalography; Auditory cortex; Temporal integration; Evoked response; Steady-state response; Humans (Forss, N. (68) 89)

Immunohistochemistry
γ-Aminobutyric acid; Aspartate; Superior olivary complex; Guinea pig (Kumoi, K. (68) 173)

Inner ear
Endolymphatic hydrops; Cochlea; Vestibule; Menière's disease; Hearing; Pathology (Horner, K.C. (68) 1)

Interaction
Noise trauma; Aging; Genotype; Auditory threshold (Li, H.-S. (68) 19)

Interaural discimination
Brainstem auditory evoked potentials; Sound lateralization; Multiple sclerosis; Magnetic resonance imaging (Levine, R.A. (68) 73)

Interaural discrimination
Brainstem auditory evoked potentials; Sound lateralization; Multiple sclerosis; Magnetic resonance imaging (Levine, R.A. (68) 59)

Lateral superior olive
Point process models; Excitation (Zacksenhouse, M. (68) 202)

Magnetic resonance imaging
Brainstem auditory evoked potentials; Sound lateralization; Multiple sclerosis; Interaural discrimination (Levine, R.A. (68) 59)

Brainstem auditory evoked potentials; Sound lateralization; Multiple sclerosis; Interaural discimination (Levine, R.A. (68) 73)

Magnetoencephalography
Auditory cortex; Temporal integration; Evoked response; 40-Hz response; Steady-state response; Humans (Forss, N. (68) 89)

Mechanics
Hair cell; Transduction; Model; Stereocilia; Tip link (Pickles, J.O. (68) 159)

Medial olivo-cochlear efferents
$2f_1-f_2$ Distortion product oto-emissions; Frequency specificity (Chéry-Croze, S. (68) 53)

Medial superior olive
Binaural processing; Neural modeling (Han, Y. (68) 115)

Menière's disease
Endolymphatic hydrops; Inner ear; Cochlea; Vestibule; Hearing; Pathology (Horner, K.C. (68) 1)

Model
Hair cell; Transduction; Mechanics; Stereocilia; Tip link (Pickles, J.O. (68) 159)

Cochlear vibration; Outer hair cell; Feedback (Geisler, C.D. (68) 253)

Morphology
Spiral ganglion; Scarpa's ganglion; Neuronal degeneration; Guinea pig; Aminoglycoside ototoxicity (Dupont, J. (68) 217)

Multiple sclerosis
Brainstem auditory evoked potentials; Sound lateralization; Magnetic resonance imaging; Interaural discrimination (Levine, R.A. (68) 59)

Brainstem auditory evoked potentials; Sound lateralization; Magnetic resonance imaging; Interaural discimination (Levine, R.A. (68) 73)

Na^+-K^+-ATPase
Hair cell; Sensory adaptation; Semicircular canal; Ouabain (Zucca, G. (68) 238)

Neural modeling
Binaural processing; Medial superior olive (Han, Y. (68) 115)

Neurology
Development; Hearing; Normative study; Children; Brainstem auditory evoked response (Jiang, Z.D. (68) 35)

Neuronal degeneration
Spiral ganglion; Scarpa's ganglion; Guinea pig; Aminoglycoside ototoxicity; Morphology (Dupont, J. (68) 217)

Noise
Cochlear potentials; Potassium-channel blockers (Wang, J. (68) 152)

Noise trauma
Aging; Genotype; Interaction; Auditory threshold (Li, H.-S. (68) 19)

Normative study
Development; Hearing; Neurology; Children; Brainstem auditory evoked response (Jiang, Z.D. (68) 35)

Olivocochlear neurons
Acetylcholine; Cochlear mechanics; Contralateral sound suppression; Outer hair cells (Kujawa, S.G. (68) 97)

Ouabain
Hair cell; Sensory adaptation; Semicircular canal; Na^+-K^+-ATPase (Zucca, G. (68) 238)

Outer hair cell
Cochlear vibration; Feedback; Model (Geisler, C.D. (68) 253)

Outer hair cells
Acetylcholine; Cochlear mechanics; Contralateral sound suppression; Olivocochlear neurons (Kujawa, S.G. (68) 97)

Pathology
Endolymphatic hydrops; Inner ear; Cochlea; Vestibule; Menière's disease; Hearing (Horner, K.C. (68) 1)

Plasticity
Deafness; Development (Moore, D.R. (68) 28)

Point process models
Lateral superior olive; Excitation (Zacksenhouse, M. (68) 202)

Potassium-channel blockers
Cochlear potentials; Noise (Wang, J. (68) 152)

Receptor potential
Cochlea; Discharge rate; Hair cell; Synchrony; Synaptic processes (Cheatham, M.A. (68) 107)

Saccule
Hair cells; Calcium-binding proteins; *Salmo gairdnerii* (Foster, J.D. (68) 180)

Sacculus
Hair cell; Stereocilia; Transduction; Vestibular system (Benser, M.E. (68) 243)

Salmo gairdnerii
Hair cells; Calcium-binding proteins; Saccule (Foster, J.D. (68) 180)

Scarpa's ganglion
Spiral ganglion; Neuronal degeneration; Guinea pig; Aminoglycoside ototoxicity; Morphology (Dupont, J. (68) 217)

Sedation
Auditory evoked potentials; Amplitude modulation; Coherence; Steady-state responses; Auditory development (Levi, E.C. (68) 42)

Semicircular canal
Hair cell; Sensory adaptation; Na^+-K^+-ATPase; Ouabain (Zucca, G. (68) 238)

Sensory adaptation
Hair cell; Semicircular canal; Na^+-K^+-ATPase; Ouabain (Zucca, G. (68) 238)

Sex differences
Auditory sensitivity; Spontaneous otoacoustic emissions; Efferent system; Handedness (McFadden, D. (68) 143)

SOAEs
Emissions; Tinnitus (Penner, M.J. (68) 229)

Sound lateralization
Brainstem auditory evoked potentials; Multiple sclerosis; Magnetic resonance imaging; Interaural discrimination (Levine, R.A. (68) 59)

Brainstem auditory evoked potentials; Multiple sclerosis; Magnetic resonance imaging; Interaural discimination (Levine, R.A. (68) 73)

Sound localization
Superior olivary complex; Trapezoid body; Binaural integration; Acoustic chiasm; Temporal response (Wu, S.H. (68) 189)

Spiral ganglion
Scarpa's ganglion; Neuronal degeneration; Guinea pig; Aminoglycoside ototoxicity; Morphology (Dupont, J. (68) 217)

Spontaneous otoacoustic emissions
Auditory sensitivity; Efferent system; Sex differences; Handedness (McFadden, D. (68) 143)

Steady-state response
Magnetoencephalography; Auditory cortex; Temporal integration; Evoked response; 40-Hz response; Humans (Forss, N. (68) 89)

Steady-state responses
Auditory evoked potentials; Amplitude modulation; Coherence; Auditory development; Sedation (Levi, E.C. (68) 42)

Stereocilia
Hair cell; Transduction; Mechanics; Model; Tip link (Pickles, J.O. (68) 159)

Hair cell; Sacculus; Transduction; Vestibular system (Benser, M.E. (68) 243)

Superior olivary complex
γ-Aminobutyric acid; Aspartate; Immunohistochemistry; Guinea pig (Kumoi, K. (68) 173)

Trapezoid body; Sound localization; Binaural integration; Acoustic chiasm; Temporal response (Wu, S.H. (68) 189)

Synaptic processes
Cochlea; Discharge rate; Hair cell; Receptor potential; Synchrony (Cheatham, M.A. (68) 107)

Synchrony
Cochlea; Discharge rate; Hair cell; Receptor potential; Synaptic processes (Cheatham, M.A. (68) 107)

Temporal integration
Magnetoencephalography; Auditory cortex; Evoked response; 40-Hz response; Steady-state response; Humans (Forss, N. (68) 89)

Temporal response
Superior olivary complex; Trapezoid body; Sound localization; Binaural integration; Acoustic chiasm (Wu, S.H. (68) 189)

Tinnitus
SOAEs; Emissions (Penner, M.J. (68) 229)

Tip link
Hair cell; Transduction; Mechanics; Model; Stereocilia (Pickles, J.O. (68) 159)

Transduction
Hair cell; Mechanics; Model; Stereocilia; Tip link (Pickles, J.O. (68) 159)

Hair cell; Sacculus; Stereocilia; Vestibular system (Benser, M.E. (68) 243)

Trapezoid body
Superior olivary complex; Sound localization; Binaural integration; Acoustic chiasm; Temporal response (Wu, S.H. (68) 189)

Vestibular system
Hair cell; Sacculus; Stereocilia; Transduction (Benser, M.E. (68) 243)

Vestibule
Endolymphatic hydrops; Inner ear; Cochlea; Menière's disease; Hearing; Pathology (Horner, K.C. (68) 1)
